

Georgia Department of Transportation Fact Sheet

US 19

CORRIDOR FACTS

- ◆ The US 19 corridor traverses the state from US 41 in Griffin in Spalding County south to Albany in Dougherty County and then extends to the Florida State Line near Thomasville
- ◆ Completed projects will provide **4-lanes** of roadway, usually divided with a grass median
- ◆ The US 19 corridor is approximately **194 miles** in length.
- ◆ This corridor is **100%** open to traffic.

PREPARING A HIGHWAY PROJECT FOR CONSTRUCTION

Highway construction demands adherence to an exact project development process, as specified in federal and state laws. This process incorporates a number of key stages that are vital to the development of a highway construction project:

- ◆ Concept Development: Data analysis, conceptual studies and alternatives analysis
- ◆ Environmental Approval: Surveys for environmental resources, public meetings and environmental document approval
- ◆ Preliminary Design Plans: Design and preparation of preliminary roadway plans and utility coordination
- ◆ Right of Way Acquisition: Property title research, right of way plans, property appraisal, purchase of right of way
- ◆ Final Design Plans: Design and preparation of final construction plans and contract documents
- ◆ Let to Contract: Advertise for bids, award to construction contract and begin construction
